ANNUAL REPORT.

On 13th June, 1929, Mr. W. C. P. Smyly was unanimously re-elected as Honorary Librarian.

Dr. W. W. Keen, of Philadelphia, presented to the College a photostat taken from the sarcophagus of William Harvey.

On 1st July the Council decided on the recommendation of the Education Committee—

(1) That the Chairs of Chemistry, Physics, and Physiology be amalgamated.

(2) That the salary of the amalgamated posts be £600 per annum.

(3) That the Professorship of Chemistry, Physics, and Physiology be declared vacant, and that the Professor be given an honorarium of £500.

(4) That as soon as possible the vacant position be advertised.

The winner of the Purefoy Memorial Prize informed the Council of her intention to proceed to America to study under Professor Harvey Cushing.

It is with profound regret that the Council records the death of their friend, colleague, and President, Thomas Eagleson Gordon, on the 24th July, 1929. The death of Mr. Gordon brings to his many friends and pupils scattered far and near a sense of personal loss. The College has lost in its President a good friend, an eminent surgeon, and one whose loss will be mourned by many.

On the 12th September Dr. W. J. E. Jessop was appointed Professor of Chemistry, Physics, and Physiology, to hold such office during the pleasure of the Council.

At a Special Meeting of the Council, held on 17th October, to elect from the past Presidents of the College a President to hold office until June, 1930, the immediate past President, Mr. Andrew Fullerton, was elected.

Resignation of Professor McConnell. — Professor McConnell wrote stating that on and after 31st December he would be unable to discharge the duties of Professor of Surgery. Professor McConnell's resignation was accepted with regret.

Mr. Arthur Chance resigned his position as a Member of Council on 11th December, 1929.

On 11th December, 1929, Mr. Arthur Chance was elected Professor of Surgery.

On 22nd January, 1930, Sir William Taylor was unanimously re-elected to represent the College at the meetings of the General Medical Council.

On 22nd January, 1930, the appointment was confirmed, that Mr. R. C. B. Maunsell should represent the College at the meetings of the Saorstát Medical Council.

The Council granted permission to the Royal Zoological Society, the Royal Veterinary College, the Hibernian Catch Club, the use of the Examination Hall for the holding of meetings.

Library.

GENTLEMEN,

I have the honour to submit my Annual Report.

The Library has been used by a large number of Students, Licentiates, and Fellows of the College.

The usual Calendars of the various Universities and Licensing Bodies have been received; also many interesting pamphlets.

The following journals and books were received:— Annals of Surgery; British Medical Journal; Journal of Surgery; Journal of Ophthalmology; Bulletin, Johns Hopkins Hospital Reports; Edinburgh Medical Journal; International Clinics; Index Medicus; Journal of Anatomy; Journal of Mental Science; Journal of the Royal Microscopical Society; Surgery, Gynæcology, and Obstetrics; Lancet; Medical Press; Practitioner; Physiological Abstracts; Archives of Surgery; Archives of Neurology and Psychiatry; Journal de Chirurgie; Journal of Bone and Joint Surgery; International Clinics; Medical Directory, Proceedings of the Royal Society; British Journal of Dental Science; Irish Journal of Medical Science; The Medical Department of the United States Army in the World War, Vol. IV; Medical Annual; Journal of the Royal Naval Medical Service; British Dental Journal; Surgical Clinics of North America; Revue de Chirurgie; Manual of Physics (Crowther), two copies; Intermediate Inorganic Chemistry (Mellor); Introduction to Modern Inorganic Chemistry (Mellor); etc. "Mouth Infections" (Machevin and Vaughan) was presented to the Library.

I have the honour to be, Gentlemen,

Your obedient Servant,

W. C. P. SMYLY.

Museum.

GENTLEMEN,

I beg to submit the following Museum Report for the past year:—

It will appear that not so much use is being made of the Pathological specimens at our disposal as heretofore.

For the teaching of Pathology, the collection has been freely used, scarcely a lecture having been delivered without the demonstration of specimens illustrating the subject of the lecture.

In the matter of fresh specimens added, it has proved rather a lean year. As long as the main source of supply is limited to a single hospital this is likely to happen.

New specimens added:—

Sir William Taylor	5
Mr. A. B. Clery	10
Dr. Owens	3
The Curator, Mr. Stokes, and Mr. Lane	30
				—
				48

New specimens mounted	10
Old specimens remounted	25
Specimens used for demonstration, about			200
Specimens used for examinations, about	...		75

I have the honour to remain, Gentlemen,

Your obedient Servant,

WILLIAM BOXWELL.
