## Museum.

GENTLEMEN,

There have been no developments in this department during the year, but it is hoped that an effort will be made during the summer vacation to get rid of more of the useless material with which the lower room is still encumbered.

No new specimens have been mounted; but there is a considerable number preserved in colour, and awaiting an opportunity to mount them.

There is an abnormally large class to cope with; and the work of cutting, staining, mounting, numbering, and distributing in boxes some 5,000 specimens has absorbed all the available time of our young technicians.

This arrangement has, however, proved so far an unqualified success.
