## Curator's Report.

GENTLEMEN,

Extensive use of the specimens in the Pathological Collection has again been made, though not in the same degree as last year, and comparatively few new specimens have been procured. Only three have been mounted permanently, as suitable mounting fluid is now unobtainable. Of the new specimens added to the collection, two were given by the President, two by Steevens's Hospital, two by Dr. Harvey, one by Dr. Crofton, and seven by the Curator. For some reason a difficulty has been universally felt this year in obtaining fresh pathological material.
